Supporting VOR Online Talk Show Program

### *About Unspoken Gifts & Gratitude*

This special fundraising event will feature individuals who have demonstrated a sincere commitment to making a difference, in our communities, by raising awareness for the causes they care about. The fall event constitutes our most significant effort to raise necessary funds for the education programs of VOR. These programs combine to offer year round service to youth from diverse backgrounds. Programs use video programming, training, community service projects to inspire an online media outlet serving as a vehicle for change in the lives of our disadvantaged and "At Risk" children within our community by building and operating an online media network with a show hosted by children. Through voices the children address some of the issues that impact are affecting their lives today some good and some bad, but it is important that they are able to talk about it openly, whether it's Bullying, Teen Pregnancy, Drug Awareness/Prevention, Education Abstinence, or just information for the community to inspire, develop and nurture self discovery, academic achievement and creative abilities.

# *Education Programs:*

Vor online talk show:

Takes students through the process of hosting a talk show, and how to interview and research guest. The class will also introduce students to all equipment in our studios, including cameras, lighting, audio, and control room equipment. Upon completion of the course, students will be able to plan and organize their productions, and create their own show.

Reality One-On-One Project is a program that has three components to it: 1.Educational program, 2. Liaison Outreach Program and 3. Partnership and Collaboration Program.

1. The educational program will encompass, training for youth through adults with basic essentials skills that will teach self worth, discipline, self control, challenges and rewards of life. We will also include, conflict resolution skills building techniques, working through family issues, communication styles. In addition the personality assessments will assist each individual to work on their career development, interview techniques and to take on responsibility for choices made to improve their life. The final piece to the educational program is the healthy living workshops. This will address mental, emotional and physical wellbeing for each participant. By focusing on the mindset of a champion and your environment, discovering your dreams teachings, along with eating, exercise and sleep fitness we will discover how our healthy lifestyle looks for each one of us.
2. Our Liaison Outreach Program will include research and computer training along with outings to auto dealerships, banks, realtors, and mentors. Our focus is to teach participants how to chose a career as they further their education, purchase a homes, vehicles, life/health insurances, how to open bank accounts, savings, budgets, investments, along with mentorships and how to become an entrepreneur. This piece of the program will also include grief workshops, development of belief system/values and overcoming the failure of our past. This will be a part of Life-Style Management-Redesigning Our Lives. We will assist individuals, families and friends through the process of grieving, de-cluttering the homes, reorganizing spaces, color-coding in their home or environments, along with prioritizing their lives.
3. Our Partnership and Collaboration will include organizational development and bridging program and services. We will have a cascade program and services with benefits coverage of a hotline and a helpline for jobs and much more. We will offer services at other nonprofit locations, schools, shelters, hospitals, churches, etc. As part of the partnership Reality one on one also reaches out to the transient and homeless population in the local area by providing them with food, warm clothing, and blankets during the winter months.
